Subject: 3rd and Figueroa walkway/tunnel

Hello Sir,

Please be advised today while responding to a call for service at 281 S Figueroa on the rear we made the discovery of an encampment set up with a couch and TV set. Two transients were on location a male black and female hispanic. We observed the subjects illegally taking electricity from a make shift wire hooked to the tunnel wall. A transient known as "wolf" who is always cooperative advised approximately 2 weeks ago on a Sunday a Citizen was struck by a passing by vehicle entering the 110 freeway off ramp due to being unable to cross through under the tunnel pathway fearing for their safety because of the conditions of the area.

Thank you for your help Sir.
Sgt. Baes
